Mt Vernon, Iowa - day by day or full course

In 'Eight Points of Light' experience Joy with:

- Faith and Trust in your own Light
- Confidence with Light to Light Communications as Source

"Eight Points of Light" is an incredible experiential course bringing individuals **heart-to-heart with their own essence** through their unique Language of Soul

Heart Listening

Eight Points of Light is devoted to evolving consciousness toward the enhancement of All Life. By you Being you, by merging with your Light, you set the angels free. This light expansion creates the field for others to do the same. All life as well as the Cosmos is affected. Previous experience moves into a hologram. EPL creates environments for honoring innate gifts, uniqueness and wisdom. As the holographic reality of thousands of years shifts and dissolves in our living experiences, we are met with challenges. Our abilities to be fluid with change are being exercised to the depths of our being. Of utmost importance now is the strengthening of our innate abilities hidden within the silence of the Language of Soul.

Having the courage to be the whole integrated balanced you is EPL's focus. Such heart conviction is celebratory, for you then live the Essene saying of being 'the ones we have been waiting for'. EPL is devoted to your heart listening to you, awakening and strengthening you to Soul.

ILIZABETH FORTUNE

MA, CST

Since a child, I have seen and known other realms and abilities within people, animals, and nature. I see their gifts, their talents, their divinity. My life's path has been a journey to discover ways of communicating these other worlds, these other realms, these hidden natural

abilities of myself and others so that there could be acceptance and understanding. Common core truths from multiple fields of my life's experience and research are shared as gifts. I offer gifts for assisting others — humans, animals and nature — to be their true essence.

Light Field and Sacred Grid Integrity

Learn 5 ways to Dowse to your Knowing. Dowse to align and attune your light bodies and your sacred geometry from within. Scan, assess and track your own light fields and sacred grids for 'leaks' and 'wobbles'. Sensitize to different wobbles and their importance. Have 'wobble wisdom'! Know how to re-integrate and re-balance to an integrated creative whole.

Interspecies & Inter Dimensional Communication

We are multidimensional, actually living more than one life at the same time. Communing with other species – they are our allies - and their consciousness helps us integrate these lives toward our soul purpose with joy and peace. Borderless Communication is silent and still within the universe of vibration graced by the divine. Animal/Nature/Earth communication and pure healing open gateways to eternity, to holographic consciousness and universal creative intelligence. *(Continue on "More Information" page)*

Be Your Brilliance

You are a weaver of a special and unique thread. It is time to free your thread through motion woven into a matrix with the many. You will offer a tapestry of beauty to the Universe, affecting All. **You living you** is your greatest teacher, the most enlightened book, and the most profound prayer. The only way you will know where to be, what actions to take, and what gifts to offer is based on listening to your soul. You thereby create alignment, attunement, faith, and integrity between you and Source — setting the angels free.

Day Three Theme — **Heart:** Spiral Bowing to Heart Center - Magnifying Grace with Gratitude

Day Four Theme — **Heart Expansion:** As a Conscious Communication Vehicle of Ascension

We are born out of water. Shaped by its liquid love, protected, adored, we bring our oceanic heaven to Earth.

Water shapes our bones, our organs, our brains, and finally nestles inside our cells waiting – waiting for the call of Earth.

Waiting for the first burst of air.

Water waits.

Dolphins and whales swim calmly as the aquatic human awaits destiny.

The moment comes, throbs increase as the spaceship struggles to land, slipping, sliding, screaming. The pulsing amniotic softens our arrival.

Cut from the placenta — the ship has landed!

Breath enters the tiny human cargo a cry

the song begins:

The jukebox twirls

Tommy Dorsey lifts his trumpet

The whales sing out

Happy Birthday

— Emilie Conrad
